I have an average family: my dad my mum and my sister.

My father is 43 years old and he works as an engineer. He is tall and sporty with brown eyes and brown hair. Although he is very busy he always finds time to be with us. He has several hobbies like playing tennis and fishing. He is intelligent and funny. He is my role model.

My mother is 40 years old. She is a kind and careful person, she is of medium-height with green eyes. She has her hair dyed blonde. She is a hairdresser and an excellent cook. She always prepares my favourite dishes. She likes running and spending time with us in the nature.

My sister is eight years old and attends the same school as me. She takes after my mother both in appearance and character. Her hobbies are playing handball and dancing.

I always visit my grandparents once or twice a week. I like them very much. We often celebrate family occasions together with them.

I have just few friends but I can rely on them whenever I feel. We usually go to the cinema or go shopping together.

We have got a dog, a golden retriever. We usually go for long walks to the nearest forest .
