

My home

I live in a flat/detached house in Kecskemét. We've got/haven't got a garden. There is a living room with a comfortable sofa and armchair. There is a coffee table and a big carpet in the middle of the room. Our books are on the bookshelf next to the TV. The house/flat has got a nice view of the town. We've got a kitchen with a big dining table and six chairs around it. We've also got a bathroom and bedrooms. My bedroom is great. There is a lot of furniture in it. I've got a bed, a desk with a chair, a wardrobe for my clothes and a bookcase. There are some pictures on the walls. I like my room very much.
